

I received correspondence in the mail stating that a commercial free radio station I support for my area is in jeopardy of losing its FM Translator service. I believe this would be a tragedy. I support this station monthly to insure that I along with the Chicago land area receive uplifting music and programing. I know that a lot of people in the Chicago land area benefit from this type of programing that has been in our area only a few years.

Please don't let us loose this great radio station. (K-Love 93.4 FM)

Thank you.
